9th Week of the Quarter

"Realizing one's possibilities, acting in love and freedom within given structures, fighting against sin and its results, all this is what creativity means... And if we are creative in this full sense, being new men and women, sharing the new resurrection life of Christ, then the fruits of his work will be seen in our lives, which will in turn have results in this world...."

P.A.C.'ers: The P.A.C. is losing a large number of towels. As tempting as it is to wrap your swim suit up in a towel when it's wet, *please, please* do not! Your diligence and exemplary behavior will help secure future use of the P.A.C. (Sports Commission, box 562)

ASC Newsletter # 1

February 22, 1980

From the All-Seminary Council President, Harold Otterlei:

To the Students of Fuller Theological Seminary.

The three Graduate Union Presidents, Alan Tjeltveit, Rob Caudillo and George Adekeye, and I met with the Board of Trustees a few weeks ago. When we met with them, I was given ten minutes to report on:

- 1). The activities of student government;
- 2). My perception of students' attitudes and concerns.

In this first letter I will tell you about, number one, some of the activities of ASC. In the second and third upcoming letters I will share with you about number two, my perception of students' attitudes and concerns.

I am using this format because I am unable to use the Paradeigma presently for the reason that the editor and copy editor had to resign because of time commitment pressures.

COMMUNICATION

We are seeking ways to communicate better the activities of the All-Seminary Council (ASC) to you, the student body. As one alternate form of communication to the Paradeigma, we are hoping to make our bulletin board (located between the mailroom and the refectory) more useful and attractive.

STUDENT EXECUTIVE COMMITTEE

The ASC and the 3 Graduate Union Cabinets are considering a proposal to form a Student Executive Committee consisting of the presidents of the four "student councils". Its purpose: to further better communication between the four governments and to coordinate their affairs. This committee would also act as a liaison between students and the administration/faculty.

TRAVEL SERVICE

The ASC has closed the Travel Service. There were too many cancellations and bad checks from students.

LAUNDROMAT

The ASC is considering managing the newly obtained laundromat on Walnut. It would provide jobs for one or two students, service the needs of dorm students and may give some income to the ASC.

USED BOOK EXCHANGE

The ASC has been considering re-opening the Used Book Exchange. The problem: We fear it won't pay for itself. We are seeking ways to make it go without having to subsidize it.

CATALYST

The ASC has received a \$1500 gift from the Fuller Women's Auxiliary to be used to expand the kitchen in the Catalyst. This would allow the lines to move faster. Plans are underway.

BOARD OF DECLARATION

A subcommittee met on Friday, February 15 to review the recent discussions posted on the Board of Declaration. They made the following recommendations to the ASC which have been approved:

- a) A purpose and policy statement of the Board will be posted.
- b) In light of point number 10, which states that if a student takes offense to something posted on the board, he should contact the ASC president: a task force is formulating a process to handle grievance procedures for people who might be offended by certain statements posted. This kind of process does not presently exist. Each case would be handled individually.
- c). The Fuller Statement of Faith will be posted as well, to serve as a reminder to the community of what the school's beliefs are. This would inform prospective students and visitors as well.

STUDENT HOUSING

The Chairman of the Facilities Committee, Dave Eaton, asked me to convey to you his concern that though the purchase of property, particularly student housing has been going quite slowly, it is not the intent of the committee to proceed this way. He said he has never seen so many snags in purchasing property as he has seen here at Fuller. They are behind us as students and are trying to do all they can to see our need met.

FINANCING OF PROPERTY PURCHASES FOR STUDENT HOUSING

In this last Trustee Meeting, I learned how the school goes about financing student housing purchases. It is done through something called co-tenant housing. A person can buy one unit for \$30,000. According to the trustees, this is one of the most imaginative ways they know of for a person to give a gift to a non-profit institution. It serves both as a tax shelter and as a financial investment it makes it possible for a person to give a gift without really costing him/her a cent. They are in the process of looking for prospective investors.

CAPITAL FUNDS DRIVE

The school is about to embark on a Capital Funds Drive with the intent to raise about \$10 million dollars. These monies would be used for current operating costs, land acquisitions, buildings and endowments to pay for more faculty.

I hope you have found this newsletter informative. We continually look for your input as students. Do you have any criticisms to make? Any suggestion, etc.? I am seeking to communicate some things to you. Will you communicate your concerns back to me? If you do, I can better represent you and be a better advocate.

Watch next week's SEMI for ASC Newsletter #2 in which I will share with you how I see spiritual formation and the need for financial aid to be inter-related.

Yours in Christ,

Harold Otterlei

Student Body President
